

Painting Workmanship Warranty

Business name		License number	
Property address		Job number	
Completion date (starts warranty)		Warranty reference	

Warranty period: _____ from the completion date, for the work in the contract and scope of work.

What is covered

- Peeling, flaking or blistering of the applied coating
- Cracking of the coating film itself, as distinct from movement in the surface beneath it
- Fading beyond what the product manufacturer states is normal
- Failure of the coating to adhere to a properly prepared surface

What is not covered

Exclusion	Why
Substrate movement, settlement and structural cracking	The coating did not fail; what is under it moved.
Moisture from any source, including leaks, rising damp and condensation	No coating survives water arriving from behind it.
Damage, abrasion, impact and normal wear	Scuffs from use are not a coating failure.
Customer supplied materials	The contractor did not choose the product.
Surfaces the customer declined to have prepared as recommended	List the declined items: _____

What we will do

Repair or recoat the affected area, as the contractor chooses. Where a repair would visibly differ, it is extended to the nearest natural break. Consequential costs are excluded.

How to make a claim

1. Notice in writing to the address above, within _____ of the defect appearing
2. Photographs of the affected area where possible
3. Reasonable access for inspection before any remedial work is agreed
4. Repairs carried out by anyone else void this warranty on that area
